Portfolio

Summary

Aspiring Data Scientist with strong skills in Python, SQL, and Machine Learning, experienced in data preprocessing, EDA, and building predictive models. Passionate about solving real-world problems using data-driven approaches, with hands-on experience in developing dashboards and deploying applications

Skills

Programming: Python, SQL

Data Analysis: Excel, Power BI, EDA, Data Cleaning, Data Visualization

Machine Learning: Supervised & Unsupervised Learning, Feature Engineering, Label Encoding

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Streamlit

Tools: Git, Flask, Django, Jupyter Notebook

Projects

Real-Time Object Detection

GitHub

- Developed a real-time object detection system identifying 90+ objects using computer vision.
- Implemented deep learning techniques for accurate detection using live webcam feed.

Course Recommendation System

GitHub

- Built a machine learning-based recommendation system using content-based filtering.
- Developed an interactive Streamlit application for personalized course suggestions.

AI-Based Disease Prediction System

GitHub

- Built a Django-based ML web application for real-time disease prediction.
- Performed preprocessing, feature scaling, and model deployment using Pickle.

Power BI Sales Dashboard (Amazon Data)

Live Dashboard

- Designed an interactive dashboard analyzing sales, profit, and regional performance (10K+ records).
- Created KPIs for revenue, quantity, and profit trends.
- Extracted actionable insights using filters, slicers, and visualizations.

Sports Analytics Dashboard (Virat Kohli)

Live Dashboard

- Built Power BI dashboard analyzing player performance across ODI, Test, and T20 formats.
- Visualized total runs, averages, and opponent-wise insights.

Internships & Training

Data Science Intern

Mar 2025 – Apr 2025

Gladify Edutech Pvt. Ltd.

- Worked on real-world datasets for analysis and machine learning model development.
- Applied EDA techniques to extract meaningful insights.

Data Science Training

Oct 2025 – Present

Softpro India

- Learning advanced machine learning concepts and deployment techniques.
- Working on real-world datasets to perform EDA, feature engineering, and model evaluation.

Education

B.Tech in Computer Science

2023 – 2026

Integral University, Lucknow

B.Sc in Mathematics (84%)

2019 – 2022

Ayodhya Prasad Mishra Mahavidyalaya, Unnao

Interests

Photography & Editing, Quiz Solving, Reading, Playing Cricket, Traveling & Exploring, Cooking
